Classics of the Month

'Chishinshu' 25volumes.

Designated as an Important Cultural Property of Hiroshima Prefecture (1966) 1822 (Bunsei 5) Central Library Rare Materials Room

These materials were used as the basis for the "Geihantsushi," the topography of the Hiroshima Domain. During the Bunka and Bunsei period, written requests were made to each village, and the information was compiled by Iida Atsuorou, the town official of Hiroshima's Nishi Machibugyousho.

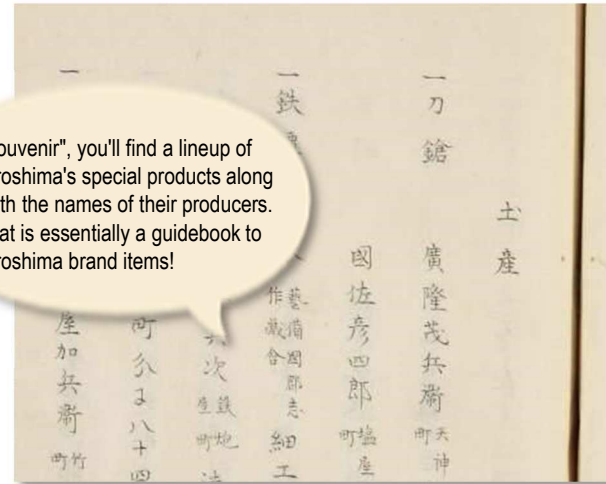

The 25 volumes include descriptions of temples, shrines, famous places, local products, annual events, statistical information of each town and village, and biographies of old and notable families.

There are also sections omitted in the compilation of "Geihantsushi," making it a valuable topographical resource for understanding Hiroshima at that time.

"Souvenir", you'll find a lineup of Hiroshima's special products along with the names of their producers. That is essentially a guidebook to Hiroshima brand items!
